New Delhi, dated 29.07.2013

To,
As per list attached.

Sub: Recording of final measurement in Measurement Book (MB) of old contracts before entering into new contracts.

1. In an investigation by the Zonal Railway Vigilance, Central Vigilance Commission (CVC) advised that recording of final measurements in MB of old contracts should be done on priority basis and before entering into new contracts at the same locations for similar type of works.

2. Recommendation of CVC has been examined in detail and it has been decided by Board (ME) that in respect of Works Contracts, final measurements should be recorded in the Measurement Books on priority basis for the works already completed.

3. It should also be ensured that execution of works under a new contract at the same location for similar type of works, be started only after completion of work and recording of final measurements in Measurement Books (MBs) in respect of earlier contract(s).

Please acknowledge receipt.
