Sub:  Updation of RIO related information on IRVINS

To enable expeditious processing of D&AR cases arising out of vigilance investigations, a proposal to delegate nomination of RIOs to the Zonal level in all cases where the DA is at the Zonal/PU level is under consideration.

Before this is done, it is critical that information regarding appointment of RIOs already made should be kept updated on the IRVINS database. This will enable nominations of RIOs to be made in a balanced manner preventing allocation of excessive cases with a single RIO. This will also help in identifying number of cases pending with each RIO.

A recent check on IRVINS revealed that this data is not being maintained up-to-date in many cases. Zonal Railways and Production Units are requested to kindly update this data in all respects by 3rd June, 2016.

In future as well, this data would need to be updated regularly.

With a view to assist the process, instructions regarding updation of this information on IRVINS is also attached for easy ready reference. In case of any problem, Shri Anil Chopra, Joint Director, V(C) may be contacted.

The delegation of nomination and appointment of RIOs at Zonal/PU level is expected to further enable speedy finalization of D&AR cases, hence, the task of one time updation of the IRVINS database in this regard and subsequent regular updation may kindly be given the highest priority.

This issues with the approval of Adviser/Vigilance.

DA : As above

(Mayank Tewari)
Director Vigilance (Mech.)
Railway Board
