Railway Board

No.2008/CE-I/Misc/2/RUB/ (Pt)

New Delhi, dated 12.01.2010

The General Managers,
All Indian Railways

Sub: Provision of Light Over Bridge and Foot Over Bridge at Level crossing gates for use by light vehicular traffic and pedestrians
Ref: Board's letter No.90/CE-I/BRO/157 dated 24.09.1991

It has come to the notice of Board that at some locations it is not possible to close the level crossings even after Road Over Bridge has been constructed and commissioned because of the inconvenience experienced by Light vehicular traffic and Pedestrians in negotiating the steep gradient of ROB or the ROB having been constructed at a distance from the existing level crossing. In such cases, the essentiality and feasibility of construction of a Light over bridge (with ramp portion lying outside railways area) for light vehicular traffic (2/3 wheeled vehicles) and pedestrians or a FOB for pedestrians only, may be examined, on a case to case basis. Such proposals should not be mooted as a matter of course but only in cases of genuine hardship and should be examined very critically. The work of construction of the light over bridge or FOB should be processed under Plan Head-30, "Road Safety Works-ROB/RUB" and the cost should be shared equally between Railways and the state govt. i.e. in the ratio of 50:50. Other conditions, like provision of land, etc. free of cost by the state govt. as applicable for construction of ROB/RUB will also be applicable in these cases.

This issues with the concurrence of Finance Directorate of Ministry of Railways.
