**GOVERNMENT OF INDIA/BHARAT SARKAR.
MINISTRY OF RAILWAYS/RAIL MANTRALAYA
(RAILWAY BOARD)**

No. 2017/RS(G)/779/2

New Delhi, dated: 20.06.2017

The Controller of Stores
All Indian Railways & PUs

Sub: Utility and input form for feeding GST data of manual transaction on railways.

Please find enclosed herewith CRIS's letter no. 2017/CRIS/DPS/GST dated 16.06.2017 received under Adv/A's note no. 2016/AC-II/01/16 dated 19.06.2017 on the above subject for further necessary action (where ever applicable).

No. 2017/CRIS/DPS/GST

Dated: 16.06.2017

AM (C)
Railway Board,
Rail Bhawan,
New Delhi.

Sub: Utility and input form for feeding GST data of manual transactions on Railways.

Ref: CRIS's letter of even number dated 08.06.2017.

In continuation to the letter cited above, the final format of the input form in the utility is attached with annexure. The process consists of:-

1. The utility form for printing at various units includes stations where manual transactions involving GST will be done is being loaded on the Railnet website of all the Railways. The assumption is that Railnet accessibility at every point of the zonal railway is available.
2. The Department which is actually generating the revenue and applying the tax will have to fill the form in duplicate, under signature and stamp and send it to station UTS counter for cash/money collection. This becomes the tax invoice.
3. Division or zone has to arrange a mechanism to collect these invoice copies for data entry into a separate utility being provided by CRIS at points of their choice.
4. The utility which will enable data entry is being loaded on the website indianrail.gov.in. To access this, the following website address is to be filled up - "parcel.indianrail.gov.in".
5. The assumption in this case is that every data entry centre has internet connectivity and a PC based on Board's instructions issued in this regard. The data entry so done will directly come to the GST server at CRIS, New Delhi.
6. The person entering the data must verify the data received in manual form to ensure that correct data is filled. The utility will have an option to pre-check the entered data before confirmation and submission of data.
7. The data entry will be through a login mechanism. CRIS will give a facility within the utility for creating login IDs and Password to nominated staff of each Railway. CRIS will create the supervisory ID and Password for each Railway.

टेलीफोन/TELEPHONE : 24104525, 24106717 फैक्स/FAX : 91-11-26877893

An annexure has been made which is attached to this letter explaining the nature of each field in the input form and from where the data will come.

Board is requested to issue instructions to follow this process in conjunction with the process conveyed to Board vide our earlier letter referred above. Presently, the form is loaded on the Railway website of N.W.Rly and N.Rly. They may be asked to look into the form and suggest the changes, if any, so that the necessary corrections can be made.

Encl: As above.
