Sub: Crediting of pension in two accounts of a pensioner.

During check of pension payment scrolls on one of the Railways it has been noticed that pension of a pensioner was being credited simultaneously by two banks in his pension accounts maintained by them. It was later verified by deputing a staff that the pensioners' account was transferred from one bank to another and the banks from where the pensioner had got the pension transferred, continued to credit pension in his account. The pensioner had however, not withdrawn any pension from that account and the same was returned to the Railway. Board desires that suitable checks may be ensured by your Railways to rule out similar irregularities.

A feedback on the action taken along with outcome thereof may be sent for Board's information at the earliest.
