RAILTEL is in the process of finalizing the Content on Demand tender for streaming of infotainment content on running train.

However, till such time this Content on Demand service is made functional by RAILTEL, Railways may provide individual WiFi Hotspots for streaming of pre-stored and pre-verified content in important trains as per model of Kathgodam Shatabdi.

Once the RAILTEL tender is finalised, the engaged service provider will take over the activity of providing on-board entertainment.

This has the approval of Railway Board. (CRB, MRS & MT)
