Uttam Prakash TOURS & TRAVELS

How to use this index to locate the right table

- The Station Index lists all the stations mentioned in this Timetable, in an alphabetical order.
- Important stations have various destination stations listed under them. The table numbers are given alongside the destination stations, in **Magenta colour**. The numbers listed in black denote the train numbers connecting these stations.
For instance, if you are travelling from Ahmedabad to Mumbai, you will first have to locate your starting station Ahmedabad, then look for the table numbers (in **Magenta**) and train numbers (in **black**), listed alongside your destination station: Mumbai.
- If a destination station is not listed under your starting station then look whether the pair of stations are listed in the reverse direction.
For instance, if you are travelling from Amritsar to Jhansi, you will find Jhansi is not listed under Amritsar. In the reverse direction Amritsar is listed under Jhansi and Table No.4 is indicated. So the table you should refer to for travel from Amritsar to Jhansi is Table No. 4A.
- Destination stations are not listed under smaller stations. Instead you will find the table numbers mentioned in **Magenta**, against the station itself.
- To help you locate the station in the Indian Railways Map easily, corresponding Map Reference Numbers are mentioned in **Blue** boxes against select stations.
For instance, if you are trying to locate Ahmedabad in the Map, you will find B6 listed alongside. This means, you will have to look in the square formed by B on the horizontal axis and 6 on the vertical axis in the Indian Railways Map.

Note : Experimental stoppages are under review and maybe withdrawn/ extended. Passengers may confirm before planning the journey.
