CHAPTER - I

INTRODUCTION

1.1. New Guwahati (NGC) Works Depot falls under the jurisdiction of Lumding Division and is situated 13 KM away from N. F. Railway/HQ/MLG. The colony, road, drain, and Railway stations office buildings, Railway colony and Railway stations water supply including water pipe lines are maintained by this unit. This unit is under functional control of Sr.DEN /C/ Maligaon under LMG Division.

1.2. AUTHORITY :

SDGM/MLG

1.3. TERMS OF REFERENCE

To assess the requirement of staff Strength at SSE/Works/NGC under Lumding Division.

1.4. METHODOLOGY

- a) Discussion with Supervisors and officers.
- b) Data collection in terms of various works involved.
- c) Assessment of workload.
- d) Arriving at staff requirements.

CHAPTER - II

SUMMARY OF WORKLOAD

2.1. The SSE/WORKS/NGC performs duty of both office and field. The works are broadly classified as follows:

- a) Executive works.
- b) Store works.
- c) Establishment work
- d) Industrial Relation & staff welfare etc.

2.2. The normal duty performed by SSE/Works/NGC are:

- i. Inspection and maintenance of service buildings, staff Quarter, FOB & drainage system regularly.
- ii. Account, procurement and periodical verification of stores & tools required for regular revenue maintenance.
- iii. Maintenance of land boundaries of Railway as specified in Engineering code/Manual.
- iv. Execution of new /sanctioned works including Zonal works.
- v. Measurement and bill pertaining to works including correspondence if any.

2.3. WORKLOAD UNDER SSE/WORKS/NGC

a) Residential Quarter total = 1791 units.

Total plinth area of Residential Quarter = 87220.00 Sq.m.

b) Service Building:

Under SSE/Works/NGC there are 24 nos. of service cum office building to be maintained.

Total plinth area of service building = 65257.00 Sq.m.

c) Details of workload under SSE/Works/NGC for the period April'18 to March'19.

Nature of works	No. of complaints	
	Received	Complied
Leaky Roof	133	94
Door changed	235	121
Masonry	304	280
Carpentry	212	190

d) Filter Plant

STATION	NUMBER	TYPE OF FILTER	CAPACITY
NGC	01(Two bed)	Gravity Filter	15,000 gallon / per hour per bed

e) Water Supply

Station	Tap Water	Raw water	No of tube well	No of deep tube well
NGC	Yes	NIL	NIL	03
NNGE	yes	NIL	Nil	1

2.4. Other Workload :

- i) Road = 19122.00 RM
- ii) Drain = 23768.00 RM (Major) and = 23535.00RM. (Minor)
- iii) Bridge Major = 20 RM Minor = 159.00 RM
- iv) PIPE LINE = 36700.00 RM
- v) Level crossing (Manned)= 05 , (Un Manned)= NIL
- vi) No. of Trolley = NIL.
- vii) No. of Rest House = NIL.
- viii) RUB (Road under Bridge) = NIL
- ix) FOB (Foot over Bridge) = 01(One)
- x) Retiring Room = NIL
- xi) No. of Go down = 52 Nos.

CHAPTER -IV

CRITICAL ANALYSIS AND STAFF REQUIREMENTS

4.1. The Work Study Team critically examined the various activities & work load of SSE/Works/NGC according to the activity-wise observation. It is seen that work load is in decreasing trend. The reason is that numbers of activities are either off loaded or some activities are becoming obsolete. More over now-a-days maximum works are done by the Railway through contractual basis where mere supervision lies on the part of SSE/Works.

4.2. EQUATED WORKLOAD OF SE/WORKS/NGC.

The Equated Plinth areas under SSE/WORKS/ NGC are:

- i) Equated Plinth area of Residential Quarters = $87220.00 \times 0.7 = 61054.00$ Sq.m
- ii) Equated Plinth area of Service/Office Building = $65257.90 \times 1 = 65257.90$ Sq.m
- iii) Equated Plinth area of Road = $19122 \times 1 = 19122$ Sq.m
- iv) Equated Plinth area of Drain = $23768 \times 1 = 23768$ Sq.m
- v) Equated Plinth area of Bridge = $20 \times 1.6 = 32.00$ Sq.m

Total	= 169233.9 Sq.m
-------	-----------------

4.3. Requirement of Technical Supervisor:

The workload of SSE/Works/NGCEPA in Sq.m. As recommended vide Diagnostic study Vol- II May'90 issued by RITES, the workload for an in charge may be 40,000 EPA in Sq.m.

Supervisor required	= $169233.9 / 40000 = 4.2$ Nos.
---------------------	---------------------------------

L.R.	= 0.5
------	-------

Total	= 4.7 Nos . i.e. = 5 Nos.
-------	---------------------------

The Study Team is of the opinion that 5 Nos. of Supervisor may continue to manage the workload of SSE/Works/NGC.

4.4. Requirement of Blacksmith & Painter:

The activities of Blacksmith & Painter are not a routine work & reduced immensely for off loading of some activities. Keeping in view the above facts the study team considered the following staffs which are adequate to meet the requirement.

Against the category of Blacksmith 3 nos. posts (including one Sr.B/Smith) are available in the BOS however there is no staff except one on roll Sr.B/Smith for a long period. Apprehending unforeseen future requirement, together 2 posts of Blacksmith (including one Sr. B/Smith) may be kept against the BOS and **surrender the rest 1 vacant post of Blacksmith**. Similarly against category of Painter there are 3 nos. sanctioned posts against onroll 1 no. staff. **Work study team suggests surrendering the vacant 1 no. post of Painter**, since the most of the works of painting are presently being executed by outsourcing.

4.5. Requirement of FPO & FPO Helper :

There is sanctioned strength of 4 nos. of FPO & FPO Helper whereas only 01 No. of on roll staff. Considering work load 2 nos. of FPO & FPO Helper are adequate to meet the requirement and **suggest surrendering the vacant 2 posts from BOS**. Any unforeseen work load in near future will be dealt by outsourcing. It is to be noted that these category has been largely outsourced in most of the Units of Works deptt.

4.6.Requirement of other allied staff :

Based on the workload vide para 2.3-(c) to (e) at Chapter – II, the following staffs are Considered to be adequate including LR.

- a) **Carpenter:** The replacement of doors of all the Quarters either by PVC or Iron as being done by outsourcing engaging agencies. Thus, the workload of Carpenter drastically reduced. There're 7 nos. of sanctioned strength of Carpenter vice 3 nos. on roll staff including 1 no Sr. Tech Carpenter are available with this Unit. Therefore it is suggested that **4 nos. posts from carpenter category may be deleted from the BOS** against 7 nos. sanctioned post.

- b) **Mason:** Against this category 06 Nos. posts are sanctioned including 1 no. post of Sr. Tech. Mason vice 1 no. on roll staff. Presently masonry works are mostly dealt by out sourcing thus drastically reduced the necessity of Mason under SSE/W's units. Apprehending **these 4 posts may be surrendered from BOS** keeping the rest two vacant posts intact with the apprehension of future unforeseen increased workload.
- c) **Fitter:** Against this category 06 Nos. posts are found sanctioned including 1 nos. post of Sr. Tech. Fitter vice no on roll staff. **3 posts from this category may be surrendered** to achieve financial viability leaving 3 nos. posts intact for any future requirement.
- d) **Helper:** There are 21 Nos. sanctioned posts against Khalasi Helper including LR against 12 nos. on roll staff. Since the said unit is running uninterrupted for long period with 9 nos vacant posts therefore **4 nos. of posts from this category may surrendered** to achieve financial viability leaving 5 nos. posts intact for any future requirement.
