1.0 **Introduction**:

India is a developing country and to improve the economy of the country, it needs a well-managed transport system. Indian Railways plays a major role in this aspect; as such it is the Life Line of the nation.

For efficient running of an organization like Railways, synchronization of Men, Machines, Materials, Money, and Management are very important. Material Management plays a vital role in providing the material required in minimum time, in proper quantity, at desired place and at a reasonable rate.

The Materials Management (Stores) Department on Railways has an integrated responsibility in respect to three areas of – Purchase, Stores Keeping and Disposal of obsolete stock and scrap material accruing during its working.

The stocking and distribution are handled through three stores districts with Headquarters at Mahalaxmi, Dahod and Sabarmati, while procurement organization is centralized at Headquarter Office, Churchgate.

Dy. CMM have been posted in all the Depots and have been delegated powers to purchase non-stock items upto specified limit and stock items in case of emergencies.

The requirements of Workshops are looked after through Stores Depot attached to them.

1.1 **Objectives of Material Management:**
