Sub: Selection Procedure

In Board's letter No.E(NG)I/76PMI/168 dated 3.9.1976, instructions were issued that normally only staff in the grade immediately below the selection grade should be considered and in case the requisite number is not found in that grade, it would be permissible to go down to the second grade below but in no case should any candidate in the grade lower than the second grade below be considered. It was also indicated that in case the number of candidates thus available is short of three times the number to be empanelled, a reference should be made to the Railway Board. In subsequent instructions contained in Board's letter of the same number dated 31.8/2.9.1978 it was indicated that in cases where employees available in the next two lower grades happen to be short of three times, the railway administ-
rations may decide whether the number is adequate for holding a selection and in case they considered that the number was adequate, the selection may be conducted and where adequate number was not forthcoming, the candidates in the third lower grade could also be considered with the specific approval of the Head of the Department concerned.

.....2/-

2. The matter has been further reviewed by the Ministry of Railways and it has now been decided that in the case of all selection posts, candidates working upto two grades below the Selection posts should only be considered for selection even though their number may not amount to three times the number of vacancies for which panels are to be framed.
