**Sub: Maintenance arrangement for NMG Stock.**

NMG stock is invariably being proliferated across IR and being utilized in a big way for transportation of automobiles. This stock has been made out of ICF coaches after necessary modifications etc. indicating it being primarily a coaching stock. Also, the maintenance pattern of NMGs is on the similar lines of ICF coaches.

However, it is learnt that in some Zonal Railways the maintenance aspect of these are dealt by freight wing of the Rolling stock. In view of NMG being a Coaching stock, all activities related to NMG like maintenance, material planning etc. should be dealt by CRSE/Chg. at the Zonal HQ level.
