Annexure I (Annexure to the letter No. No. 95/M(C)/141/1 Pt. Dated-01.05.2021)							
Sr. No	Category of Train	Preventive maintenance schedules at pit line	Under gear examination and air brake system maintenance at pit line	Internal cleaning, passenger amenity attention and watering	External cleaning on nominated line with proper facilities	En-route/ Terminating Examination	Brake system check prior to start at platform at the other end
		I	III	IV	V	VI	VII
7	Military / Election Special trains	At the Primary end only.	i. Generally to be done within 3500 KMs (for ICF rakes) or 4000 KMs (for LHB Rakes), or 7days whichever is Earlier. ii. Other end under Gear examination may be permitted only once.	At Primary end and each terminals	At the Primary end only	i. En-route Examination: a. After every 250 to 350 KMs of run or at the next nominated TXR point to the stopping station. b. Locations to be decided by the Zonal Railway for each train. ii. Terminating Examination: At Terminating station	i. Only continuity check if stabled at platform, otherwise, ii. Brake power check with endorsement on original BPC
Remarks							
VIII							
i. As there is no grade separation between loaded passenger trains and vacant passenger trains, it is imperative that the same safety standards are followed for both types of trains. ii. Once the train commences its journey, under gear and air brake system examination at pit line may be done on reaching the first destination mentioned in the BPC, irrespective of the distance travelled or time taken for this journey. iii. The BPC will indicate the first destination and at the first destination, if such a train is to re-originate without fresh examination, the Station Master will endorse the next destination on the BPC available with the Guard and Driver, provided the total distance / time limit from the point of last under gear examination till the final destination is not going to exceed the prescribed limit.
