GM/CRIS

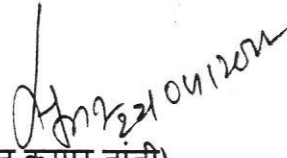

Sub: Proper data feeding over CMM related to Rolling Stock Certificate.

While examining the Rolling Stock Certificate data over CMM, it has been noticed that PUs are not feeding complete data in attributes provided by CRIS for newly build coaches.

In this regard, PUs are advised to fill all these attributes on regular basis and also advised to get the attributes modified if required.

Further CRIS is advised to co-ordinate with PUs for creating missing attributes which are available in Rolling Stock Certificate and not on CMMS. It is also advised to make available attribute data in consolidated format.

This is for necessary action please.
