**Sub: Implementation of feature to only allow WISE to accept coaches into shop through shop booking through CMM**

During review of holding of coaches over Zonal Railways on CMMS, it was noticed that currently, the standard procedure is that all coaches are initially booked by the depot before being transported to the workshops for maintenance.

However, it was informed that WISE does not follow the process and allows for taking coaches inside the workshop without booking from the CMMS.

In order to ensure consistency and adherence to the correct procedures, it is requested that this practice be discontinued and necessary checks be put to only permit the entry of coaches into the workshop that have been officially booked through the CMMS application.

For information and necessary action please.
