Sub: Processing of condemnation proposal for approval of offering of condemnation approved wagons for disposal
Ref: Board’s letter of even no. dated 02.04.2018

Vide Board’s letter under reference, the procedure for processing the wagons identified for condemnation and their subsequent hand over to Stores for sale and disposal has been advised. As per the procedure to be implemented on 09.04.2018, the deletion of wagons on account of condemnation is possible only in those cases where interception certificate and condemnation certificates have been generated on the IRWMS system.

Some of the Railways have brought out that there are some cases of wagons, which were under process already in different stages from interception to hand over to Stores at the time the new policy was implemented i.e. on and from 09.04.2018. Since their condemnation process had been initiated prior to 09.04.18, it is therefore, no longer possible to generate interception and condemnation certificates and hence the deletion is not being permitted by the system.

In order to ensure that all wagons condemned for sale get deleted from Wagon Master, the following action is to be taken by the Railways:

(a) A list containing all the wagons, which were under process at the time of implementation of the subject policy, is to be prepared and sent to Railway Board.
(b) Along with the list, copy of the approval of competent authority for condemnation is also to be sent for each wagon.

The above information may please be sent to this office at amefreight@gmail.com and or edmef@rb.railnet.gov.in by email along with scanned documents. Based on the information provided by railways, necessary action for deletion of such wagons shall be taken at Railway Board.

The matter may please be treated as URGENT.
