My Dear

Sub: Performance monitoring for vendor benchmarking through RDSO's dedicated web portal.

"Failure Reporting and Vendor Performance Monitoring System" (<http://10.100.5.33:86>) is a dedicated web portal that has been commissioned by RDSO. The express objective is of imparting transparency in the vendor-benchmarking process through statistical analysis of data posted on it every quarter by consignees at the field level. I am given to understand that requisite guidelines for use of the portal have already been circulated by RDSO and that training of field level personnel has also been accomplished. On the portal, access to a 'help file' is available to the logged in user too.

You may like to direct the departments concerned to ensure that posting of data on the portal gets done in accurate and prompt manner with effect from quarter ending September 2014.

With best wishes,

Yours sincerely,

Arunendra Kumar
