

GOVERNMENT OF INDIA  
MINISTRY OF RAILWAYS  
(RAILWAY BOARD)

No. 2009/Safety(A&R)/26/4.

Dated: 11.02.2010

General Manager,  
All Zonal Railways except South East Central Railway

Sub:- Conflicting signals or bobbing of signals.

South East Central Railway has reported that the Loco Pilots on their Railway have cited cases of conflicting signals or bobbing of signals (where the aspect changes back and forth). On a cross check by the Safety officials a variety of reasons/situations have been found that lead to such events. Corrective action in this regard is being taken by the Railway.

It is advised that similar checks on the incidents of conflicting signals or bobbing of signals may be carried out along with examining such reports by loco pilots and corrective action, if required, may be initiated.

A report in this regard may be submitted to Board.

  
(Kamlesh Gupta)  
Adviser Safety.
