भारत सरकार/GOVERNMENT OF INDIA
रेल मंत्रालय/MINISTRY OF RAILWAYS
रेलवे बोर्ड (RAILWAY BOARD)

No. 2008/Sig/SGF/4/EI/GEN/Pt-I

Dated: 04.11.2019

**GM (S&T),
All Indian Railways.**

Sub: Automation in Signal Drawing – Self Reliance in Electronic Interlocking.

Ref: Board's letter of even number dated 06.06.2019.

Vide above referred letter directions were given to Railways to try a software tool developed by IIT Kharagpur in consultation with RDSO. In the past as desired by Railways, IRISSET has already organized seminars for giving training to the representatives from the Zonal Railways. In the mean time RDSO has also finalized standardized circuits along with standard nomenclature after a detailed deliberation in earlier PCSTEs Conference.

Since the software tool is likely to reduce the time taken in preparing and verification of and certification of RCC and circuit diagram considerably, Railways need to start using the software tool as a time measure.

During trial phase on Zonal Railways, if any updation/modification in the software tool with respect to standardized circuits issued by RDSO is needed, the same may be shared with RDSO for improving and finalizing the final version of the software tool for its extensive use.

Zonal Railways are thus requested to immediately start using the software tool in their ongoing new works and shall share their observations with RDSO with a copy to Railway Board.

(Anshul Gupta) 11/19.

Principal Executive Director/Signal
