

भारत सरकार (GOVERNMENT OF INDIA)  
रेल मंत्रालय (MINISTRY OF RAILWAYS)  
रेलवे बोर्ड (RAILWAY BOARD)

No. 2021/Sig/SGF/12/Datalogger/1

New Delhi, dtd. 07.11.2024

**PCSTEs**  
**All Indian Railways**

**Sub: Monitoring of Alarms & timely corrective action.**

ELDs are being provided at almost all Signalling installations for monitoring health of cables. Recently, few cases have been reported in which alarms were generated, however, proper corrective measures were not taken timely.

Similarly Data loggers/RTUs are also provided almost at all Signalling installations to be utilized as a tool for predictive maintenance. The alarms/messages generated by Data Logger in form of exceptional reports give an indication about Signalling gear requiring attention in order to facilitate smooth train operations.

Zonal Railways are advised to develop mechanism to monitor alarm of ELDs/ exception reports of data loggers on daily basis and take timely corrective action to ensure availability and reliability of signaling system. Action taken in this regard may be communicated to Board's office by 25.11.2024.
