Sub: Generation of Route Control Charts (RCCs) using Signalling Design Automation Tool SigDATE for Electronic Interlockings

Ref: RDSO letter no. RDSO-SIG0EI(SigD)/1/2024 dated 19.09.2024

With the view to achieve standardization in issue of Route Control Chart across zonal Railways the following has been decided :

1) Route Control Charts (RCCs) shall be mandatorily generated from SIP using SigDATE automation tool and approved by Zonal Railways for stations up to 100 routes.

2) Such approved RCCs shall be used for further design of Electronic Interlocking logic circuits by OEM's for new works including ongoing works where RCC are yet to be approved.

3) Zonal Railways shall nominate design officials for training/hands on experience at IRISET as required.

This issue with approval of AM/Signal.
