No.2006/SIG/E/1 Pt.

Chief Signal & Telecom Engineer  
All Indian Railways.

NR

Chief Signal & Telecom Engineer  
CORE, Allahabad.

24/6/06

Sub :Proposals in respect of S&T Construction Organization.

At present, proposals for creation of work charged post in SAG and above are being sent separately by CSTE/OL and by CAO/Const. This results in following difficulties: -

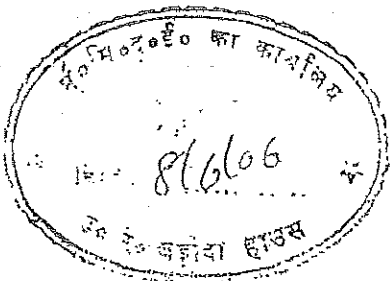

CSTE/OL  
CSTE/OL  
CS TE/W  
A.P. Singh  
24/6/06

- i) Keeping track of proposals from Railways for creation/extension of currency separately for CSTE (Open Line) and for CAO (Const.)
- ii) Due to the fractional entitlements, the required number of SAG posts in the S&T (Const.) Organization, warranted by the workload as per norms, is not sanctioned.

In view of the above, Board (ML, ME, FC and MS) has approved that all proposals in respect of S&T Construction and project organization should be processed/dealt as a single proposal (combining S&T works being executed under all plan heads) to be sent by the cadre controlling officer, viz. CSTE of the Railway.

A letter in this regard shall be issued by the concerned directorate in due course. Meanwhile you are requested to take necessary action in respect of proposals for 2006-07.

(P.K. Gupta)  
Director (Signal)  
Railway Board
