**Minutes of the 4th quarterly (i.e. January–March , 2024) WTA Meeting held on
19/12/2023 in Conference Hall at Rail Bhavan, New Delhi.**

Present:

RAILWAY BOARD: AM/RS, PED(W&D), EDRS(RS), PED/EE/RS, EDF/S, EDME/Chg
ED/EE/RS, DME/P, JDF/S, JDEE/RS, JDME/W&D and DRS(M).

RAILWAY UNITS: CMMs/DyCMMs of Zonal Railways & Production Units.

PLANTS: PCME/RWF, PCMM/RWF, PCME/Bela, PCMM/Bela, CGM/SAIL/DSP
and GM(Project)/RINL.

1.0 Railway Board:-

- Supply of Wheels and Axles from RWF remained satisfactory during 3rd quarter. RWF is advised to expedite to commission 3rd axle machining line. RWF to focus on production of Box N and BLC wheels and RWP to focus on production of coaching and EMU wheels.
- RWP has started production of EMU wheels for the first time. They informed that they have manufactured 26,500 nos of wheels which is the highest figure so far from plant. They are targeting production of 40,000 wheels in this year and 50,000 wheels in the next year.
- Supply of wheels from M/s SAIL also remained satisfactory despite major repair schedule in recent month. They were advised to expedite supply ICF axles by expediting finalization of machining contract.
- Supply of LHB wheels from RINL has improved during 3rd quarter and they have so far manufactured 7000 LHB wheels in this quarter. They were advised to expedite manufacture of 1000 nos WDP-4 loco wheels in one go to address the urgent requirement of Zonal Railways.
- SAIL was advised to expedite supply of WAP 5 loco wheels and BG Coaching Axles on priority as these are required urgently by zonal railways.
- Presently, SAIL supplying the wheels without any packing. SAIL has been advised to stack the wheels properly in packed condition so that handling of wheels will be smoother at consignee end. This to be implemented in the next three months.
- Quarterly Projections of WTA items from Railways are not realistic and not proportionate to yearly demand. They were advised to critically review the quarterly requirement in consultation with user department.
- Zonal Railways are advised not to submit small demand which is less than a truck load to Railway Board. They can approach nearest Railway PUs for collection of small quantity requirement.

Ilumy

- As per projection given by various zonal railways and PUs, the requirement is broadly estimated for the 4th quarter as:

(i) Cast Wheels	-	22922
(ii) Forged Wheels	-	23925
(iii) Axles (Loose)	-	5965
(iv) Wheel Sets	-	24400

2.0 RWF:-

- Railway Board is requested not to allot loose BG Coaching and EMU Wheels in 4th Quarter WTA allotment.
- Informed that production of wheel sets has been affected badly due to the non-availability of trade wheels. RB is requested to ensure uniform and regular supply of trade wheels to RWF.
- Due to delays in commissioning of 3rd axle machining line, RWF has requested RB to revert the production target from 90,800 machined axles to the original target of 80,000 for the year 2023-24. RB was requested to issue the revised production target for Axles for the FY 2023-24.
- For the wheel sets, there is no off take from the private wagon builders as per targets given. Railway Board may review the production target given for wheel sets.
- RB is requested to peruse with ZRs/PUs for gainfully utilizing RWF non moving inventory of 356 nos. of cast BG loco wheels for usage in shunting locomotives, where speed is limited to less than 110 kmph.

3.0 RWP/Bela:-

- Informed that they are targeting for production of 50,000 wheels in next FY.
- Informed that EMU wheels supply has started to commence from plant.
- Requested to advise zonal railways to send WTA scrap on priority as the available stock is sufficient only for few days.

4.0 SAIL/DSP :-

- Informed that they will supply around 800 nos ICF coaching axles and 500 nos WAP-5 wheels in the 4th quarter.
- Requested RB to allow it to supply finished S-profile wheels apart from semi-finished, to maximize production of wheels. RB advised SAIL to make a formal request to take a decision in this regard.
- SAIL raised issue of pending old payment from Zonal Railways. Railways, namely NR, WR, ECoR, NER and SR, were advised to look into the issue on highest priority to release old payments.

Murugan

5.0 After the deliberation, the following actionable points emerged:-

- PUs/ZRs are required to submit indents in advance for all WTA items, especially for items to be sourced from trade i.e. LHB wheels, WAG-9 wheels, LHB Axles and Box N axles. Railways are also advised to submit quarterly projections of WTA items realistically in proportion to their yearly demand.
- The revised production programme for the year 2023-24 will be issued by end of January-2024.
- RINL was advised to further improve upon supply of LHB wheels. Being a critical item and requirement of small quantities, manufacturing of WDP-4 wheels to be taken in one go in starting of 4th quarter as per requirement of Railways.
- M/s SAIL has failed in supply of ICF axles since last three quarters. M/s SAIL was advised to supply ICF axles and WAP-5 wheels on highest priority as per their commitment in meeting.
- RWP was advised to collect Rails also from neighboring Railways in line with RWF to optimum use of scrap in casting. RWP was also advised to devise suitable mechanism to get alternate source of WTA scrap in line with RWF.
- All PCMMs are advised to send scrap to RWF and RWP on priority.

6.0 All units i.e. RWF, RWP, M/s SAIL and RINL/RBL are requested to send monthly position of dispatch of various WTA items invariably to mail drsmrb2020@gmail.com by 1st week of every month.
