

**GOVERNMENT OF INDIA
MINISTRY OF RAILWAYS
(RAILWAY BOARD)**

No.2024/Track-III/TK/16**New Delhi, Dated: 14.10.2024**

**The Principal Chief Engineers
All Zonal Railways**

Sub : Utilisation of various important features provided in MPT machines.

MPT machines are provided to the Zonal Railways for spot tamping of plain track and turnouts and other applications for track maintenance. The machine has been provided with the trailer fitted with crane and shoulder ballast compactors. Shoulder Ballast Compactors are useful for compacting shoulder ballast which gets disturbed due to vibrations caused during tamping operation.

Machine is provided with DRP feature and its instruments are placed in the underframe area of the trailer. The DRP and ALC provided in the machine shall be utilized for proper utilization of the MPT machines.

Zonal Railways are advised to utilize the features available in MPT machine for which suitable instructions shall be given to all concerned in track machine organization of your railway.
