I/3107048/2024

GOVERNMENT OF INDIA (भारत सरकार)
MINISTRY OF RAILWAYS (रेल मंत्रालय)
(RAILWAY BOARD) (रेलवे बोर्ड)

No.2017/Track-III/TK/6 Pt.II   New Delhi, dt. **11** .10.2024.

Principal Chief Engineer
All Zonal Railways

Sub: Speedy implementation of Track Machine Management System (TMMS) module on the Railways.

At present Track Management System (TMS) is in use for monitoring the progress and performance of track machine working. Considering its limitations, Track Machine Management System (TMMS) has been developed by CRIS for effective monitoring and management of all activities involved in track machine working like personnel, spare parts inventory, maintenance schedules, performance etc.

In the light of above, it is imperative upon the PCEs to implement the TMMS module on the respective Zonal Railways ensuring the following:

1) In line of TMS, use of all modules of TMMS is mandatory w.e.f. 1st November, 2024.
2) All data / details must be available online.
3) Use of UDM on every machine is mandatory for Spares as well as Consumables.

Please acknowledge receipt.
