Sub: Procedure for correction of sequence of wagons in TMS so as to facilitate integration of weighbridge with FOIS

During meeting convened by AM(C&IS) for integration of weighbridge with FOIS, the issue regarding TMS sequence of wagons in a rake and its physical form has been highlighted.

In this regard, CRIS has furnished the task available in TMS [FOIS/TMS → Administration → Wagon attribute change] and a copy of the same is enclosed herewith for appropriate action.

With reference to the meeting on integration of weighbridges with FOIS, held in the chambers of AM (C&IS) on 30.11.2017 and minutes issued vide above referenced note para 3 & 4 pertain to this office. In reference to para 3 of the minutes, this office has been advised to share details of options available to FOIS users through FOIS application for correction of wagon sequencing and wagon numbers in the FOIS Database. The same are required for issuing of Procedure Orders through your office for the implementation of integration of weighbridges with FOIS. A writeup, detailing various options and steps to carry out the correction in FOIS, has been prepared by this office in regard to same and is attached as **Annexure-1**. Also, as advised through para 4 of minutes, it is informed that this office is already maintaining record of any such duplicate wagons created in system against the original wagons.

This is for your information.
