Sub: Guidelines regarding provision and functioning of weighbridges

Ref: Rates Master Circular/Provision of Weighbridge/2019/0

One of the items of the ‘Action Plan on Accident Investigation’ prepared by Safety Dte. of Railway Board under the ‘Project for capacity development on Railway safety’ is given below for taking necessary action by Zonal Railway -

"Installation of load measuring device for right and left wheel in the existing weighbridges in order to ascertain uneven loading should be explored"
