(Railway Board)

No. 2006/TGIV/10/SAN/2

New Delhi, dt. 18.1.2006

Chief Commercial Managers,
All Zonal Railways.

Commercial Circular No. 7 of 2006.

Sub: Developing modern Toilets at stations.

Modern Pay & Use toilets have been developed in the capital town of New Delhi on the pavements along the roads as well as in other public areas like parks, market places etc. These toilets are aesthetically designed with display of high quality advertising on the outer walls.

All CCMs are requested to send their suitable officers both from Commercial and Engineering departments to jointly see such toilets and develop the same on their railways at all A, B, C & D stations. Besides providing cleaner toilets, the railways would also be benefited by getting advertisement revenue from such structures.

Implementation of the scheme may please be ensured at the earliest advising Board of the action taken by 15.2.2006.
