No.TC-I/2005/108/3

New Delhi, dt. 06.08.2012

**General Managers**  
All Zonal Railways

**Sub : Installation of electronic in-motion weighbridges(EIMWBs) of private siding on Railway land**

**Ref :** (i) Board's letter No.TC-I/2005/108/3 dt.12.02.2007(Rates Circular No.12 of 2007)  
(ii)Board's letter No.TC-I/2005/108/3 dt.26.06.2007  
(iii)Board's letter No.TC-I/2005/108/3 dt.14.09.2007(Rates Circular No.90 of 2007)

**1.0** Please refer to guidelines contained in Para No.10 of Rates Circular No.12 of 2007, which stipulates that no private in-motion weighbridge will be installed on railway land.

**2.0** Board is in receipt of a number of proposals from Zonal Railways regarding installation of weighbridges by private parties on railway land on account of operational and/or technical constraints. The matter has been examined and it has been decided to replace the guideline enumerated in Para No.10 of Rates Circular No.12 of 2007 with the following insertion:-

“10.1 In case of private sidings, electronic-in-motion weighbridge (EIMWB) should generally be installed in the private land portion. In other words, Zonal Railways should continue to make all efforts to install weighbridge within the siding premises (i.e. on the private land portion) as a matter of general rule or practice.

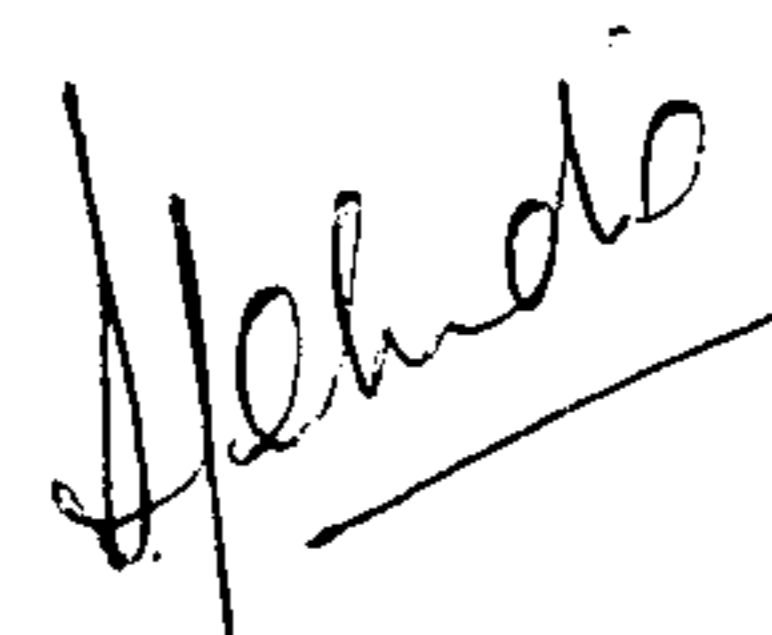

10.2 In case it becomes unavoidably essential to install the weighbridge of private siding either wholly or partially on railway land, on account of operational and technical constraints, permission may be granted by the General Manager of Zonal Railways; the location of such EIMWBs would be decided by the COM in consultation with CCM, CME and PCE.

10.3 The cost of procurement (inclusive of the requisite warranty and a post-warranty, five-year comprehensive AMC), installation, maintenance (even after the expiry of the initial warranty and the five-year comprehensive AMC), operation (including staff costs) and replacement of these EIMWBs would be borne by the private siding owner. To this end, the concerned Zonal Railway should execute an agreement with the private siding owner, which should specify inter alia that Railways would be free to weigh rakes of customers other than the private siding owner on such weighbridges.

10.4 After installation, such weighbridges would be treated as Railway's own weighbridges. While Railways would be the executing agency for functions relating

to installation, operation, manning and maintenance of such EIMWBs, the associated costs over its life cycle and replacement thereafter would have to be borne by the private siding holder; to this extent, the private siding holder would no longer have physical ownership rights as such over the weighbridge so installed. A facilitating provision should accordingly form part of the agreement between Zonal Railway and the private siding holder.”

- 3.0 All other terms and conditions as stipulated in Rates Circular No.12 of 2007 will continue to apply unchanged.
- 4.0 This issues in consultation with Traffic Transportation, Mechanical and Land & Amenities Directorates and with concurrence of Finance Directorate of Ministry of Railways.

**Sub: Provision of weighbridge in Railway premises.**

\*\*\*\*\*

The Rules for installation of weighbridges by private parties were notified vide Rates Circular No. 12/2007 dated 12.02.2007. The policy stipulates that no new in-motion weighbridge will be installed by private party on Railway land. Request has been received from some Zonal Railways to modify the rules regarding installation of weighbridge by private parties to enable installation of weighbridge by private party on Railway land.

The matter has been examined and it is advised that installation of private weighbridge on Railway land is not to be permitted as a general policy. However, in specific cases where it becomes inescapable to put such weighbridge partially or wholly in Railway land due to constraints, the concerned Railway should refer such specific cases with suitable justification for Board's consideration on case to case basis.
